# The Last Of The 70's

The beginning of school year 78-79 began like that of any other school year. The students arrived extra early, especially freshmen, in hopes of finding their way around the school.

After a few weeks clubs and activities were starting to form. Things once again began to pick up.

The second semester came quickly but went slowly. All of the vacations seemed to have taken place in the first semester giving an occasional well deserved break for both faculty and students. The last nine weeks were anticipated by all. While all other students were busy preparing for the coming year with scheduling and electing class officers, the seniors were busy preparing for the rest of their lives.

Look Out World, Here We Come!

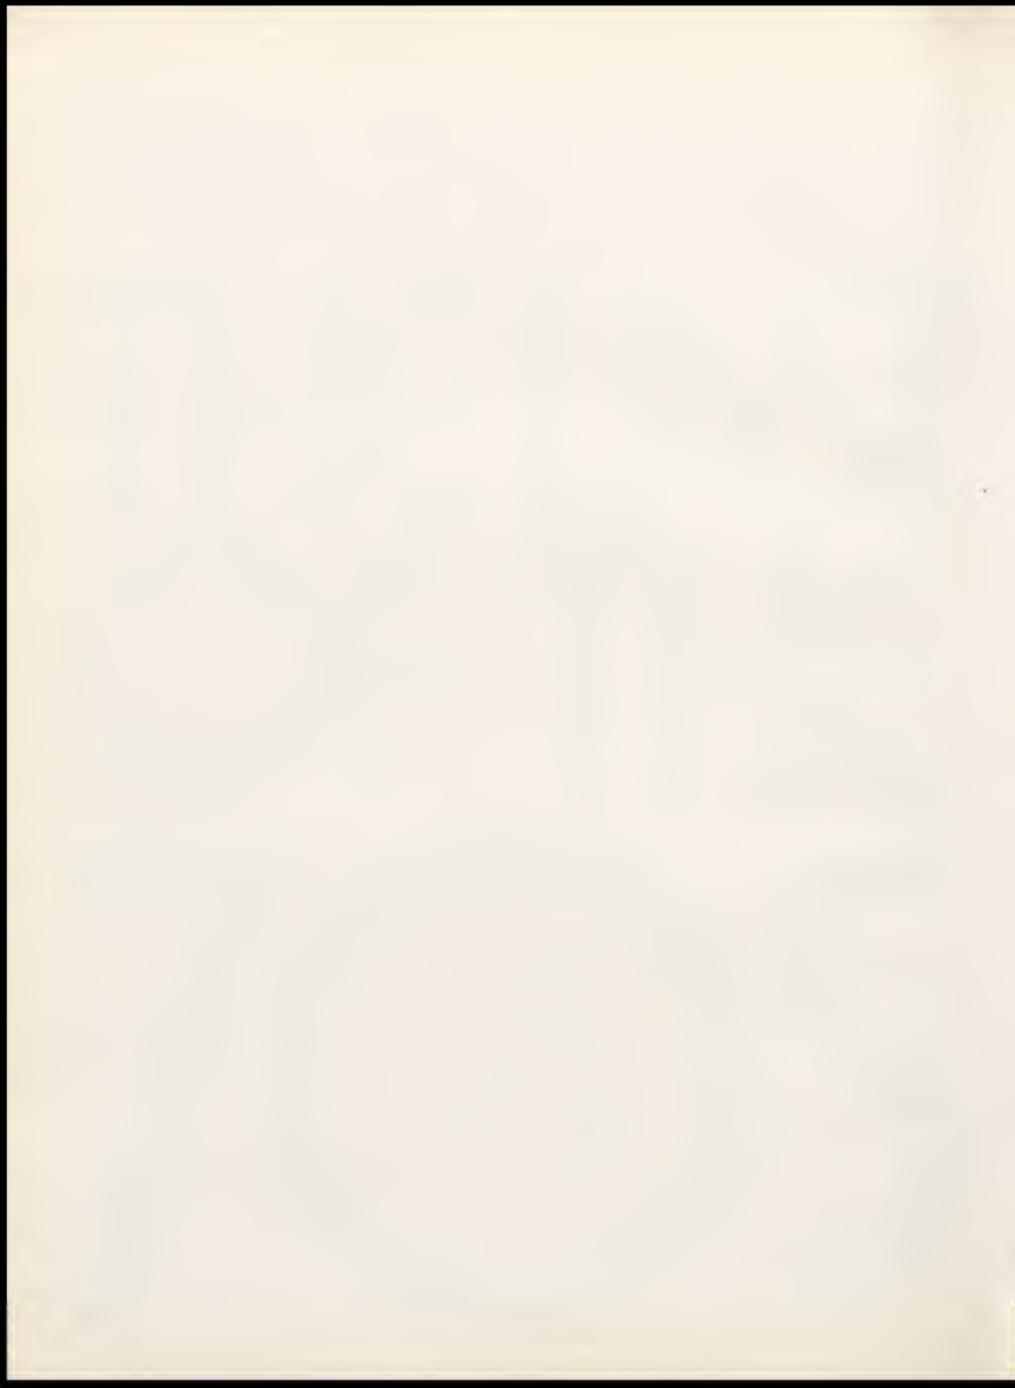

As editor of the yearbook, I would like to give credit where credit is due. This year we have really had our ups and downs, but even through the toughest times I could still count on those very few to come through. And, it was with their help that made this book what it is. Only those who wanted to be a member of the staff and were dedicated enough to stick with it really know the effort it takes to produce a book and can, therefore, thoroughly enjoy it. And to those I say THANKS!
